MONEY MATTERS exhibited the usual duliness yesterday, but we are pleased to find here and there, among the financial reports of the press, expressions anticipative of improvement. The Chicago Tribunc says: "An improvement has been noticed in the general business of the city during the present week, particularly in the retail branches, and the transactions of the banks have been larger than usual. The times are hard, but the opinion is growing among leading business men that the 'bottom' has been reached." The New York Heratd remarks: "Taking the list through there has been a visible improvement, not so much in prices as in the temper of the market. In place of the depression and gloomy forebodings which have so ong bung over the street there is a dissition to regard the future prore theerully, and though much cannot be expected in the way of a rise it is some-thing to get rid of the atrabilious hue through which the situation has been In our own market some of the bank people report a slight but quite perceptible demand for money, which s regarded as a sign of some business movement. The New York Tribune, nowever, reports; "Financial circles simply reflect the general stagnation of the mercantile interest in a plethors of loanable capital, an increase of bank reerver, a quietness of both domestic and foreign exchange, and by a growing distrust in the values of corporate securities -particularly shares-that have heretofore been regarded as sound and safe in-vestments." Liverpool telegrams arrived, the first since Saturday, and spots were unchanged, but deliveries were lower; New York spots were dull and futures wesk and lower; New Orleans declined 1. In our market the inquiry was not very active; most of the cotton that changed hands had been "telegraphed on" the day before. There was still conelderable disposition to effect sales, an easy market with some irregularities in prices, but the market closed unchanged. WITHOUT ONE FAILURE OR REJECTION This is the famous Threshing machine that has "swept the field" and created such a revolution in the trade, by its matchless Grain-Saving and Time-Sav-ing principles.

THE ENORMOUS WASTAGE of grain, so mentable with other styles of Threshers, can be SAVED by this Improved Machine, sufficient, on every job, to more than FLAX, TIMOTHY, MILLET, HUNGARIAN and like seeds are threshed, separated, cleaned and saved as easily and perfectly as Wheat, Oats, Eye or Barley. AN EXTRA PRICE is usually paid for grain and seeds cleaned by this machine, for extra cleanlines.

IN THE WET GRAIN of 1875, these were substantially the ONLY MACHINES that could run with profit or economy, doing fast, thorough and perfect work, when others utterly failed.

ALL GRAIN, TIME and MONEY wasting complica-tions, such as "Endless Aprons," "Raddies," "Besters," ALL GRAIN, TIME and MONEY wasting complica-tions, such as "Endless Aprons," "Raddles," "Besters," "Pickers," sto, are entirely dispensed with; less than one-half the usual Gears, Belts, Boxes, and Journals; easier managed; more durable; light running; no cost-ly repairs; no dust; no" litterings" to clean up; not troubled by adverse winds, rain or storms.
